# Why choose a fraternity or sorority?

9

## We're Huge!

The fraternity and sorority community has one of the highest participation rates among all of the organizations at UConn. In recent years, fraternity and sorority membership has doubled and there are more chapters than ever before. Today, we are roughly 12% of the undergraduate student population!

8

## We're Involved!

Fraternity and sorority members are involved in a variety of extracurricular activities and organizations. The more involved individuals were in their fraternity or sorority during college, the more they are involved in their community post-graduation.

7

## We're Diverse!

Despite popular misconception, fraternities and sororities represent the rich diversity of the campus population. Members come from all different backgrounds and walks of life.

6

## We're Smart!

51% of fraternity and sorority members achieve above a 3.5 GPA during the spring 2022 semester. Many more members are inducted each year into honor societies and make Dean's list.

5

## We Network!

Fraternity and sorority members have the opportunity to network through Greek alumni for job assistance and advice, internship exposure and experience, and general direction when entering the workforce. The majority of fraternity and sorority members are employed full-time after graduation.

4

## We Serve Others!

UConn fraternity and sorority members participate in countless hours of community service efforts and contribute hundreds of thousands of dollars annually to charitable causes.

3

## We're Well-Rounded!

Fraternity and sorority members are more likely than all other college graduates to thrive in each of the five elements of well-being (purpose, social, financial, community, and physical).

2

## We're Leaders!

Fraternity and sorority members are involved in a variety of campus activities, are often the most visible campus leaders and are some of the most enthusiastic supporters of University events like Homecoming, HuskyTHON, and intramural sports. Many fraternity and sorority members are ambassadors, mentors, resident assistants, tour guides, and student government officers.

1

## We're Forever!

Fraternity and sorority members typically have greater school spirit and are more satisfied with their college experience. However, the fun does not stop there. Membership in a fraternity or sorority is for a lifetime and there are many opportunities to stay connected beyond graduation.

# Interfraternity Council

The purpose of UConn's Interfraternity Council (IFC) is to govern and represent the interests of the general men's fraternities, while also serving as a liaison to the campus community. The council works to provide educational programming, leadership initiatives, and philanthropic and social events for fraternity members. IFC fraternities recruit at the beginning of each semester and each fraternity hosts their own events for interested individuals.

# Frequently Asked Questions

## **WILL JOINING A FRATERNITY OR SORORITY ADVERSELY AFFECT MY GRADES?**

Membership in a fraternity or sorority chapter at UConn offers students access to a variety of resources that can assist them in their academic endeavors. Many chapters have academic programs that may include study partners, mandatory study hours, and time management workshops. A member can also access the network of chapter members who already know how to use campus resources like the library, the Writing Center, the Quantitative Learning Center and academic advisors. Nothing, however, can take the place of a disciplined and academically-focused student to ensure success in college.

## **HOW MUCH TIMES IS REQUIRED TO BE A MEMBER OF A CHAPTER?**

The time commitment varies from chapter to chapter, but the first semester is time intensive as students participate in their chapter's new member education program. These programs provide an opportunity to learn about the history of the organization and develop friendships among the new member class as well as the rest of the chapter. Generally, each chapter has a weekly chapter meeting and hosts other events (philanthropic, service, social, and initiation) that are generally planned well in advance.

## **AREN'T FRATERNITIES AND SORORITIES EXPENSIVE?**

Joining a fraternity or sorority involves a financial commitment. The most expensive year of membership is the first year, during which a one-time initiation fee is paid to the inter/national organization and a membership badge is often purchased. Some organizations offer payment plans in order to help spread the cost over several smaller payments. More specific financial information can be determined through talking with each chapter individually.

## **DO I HAVE TO BE OF A SPECIFIC ETHNICITY TO JOIN A CULTURALLY-BASED (IGC/NPHC) ORGANIZATION?**

Though the organizations within the IGC and NPHC may have a cultural emphasis or interest, membership is open to all students regardless of ethnicity. Students who value cultural awareness and community service are encouraged to consider IGC and NPHC member organizations.

## **WHAT ARE THE RITUALS THAT I KEEP HEARING ABOUT?**

A fraternity or sorority ritual is a sacred ceremony that reminds members of their founders' vision and mission. A ritual emphasizes the inter/national organization's values and the commitment that the member made when becoming a brother/sister. These rituals may be public or private, depending on the organization. Each fraternity or sorority has a ritual at different times throughout membership. These sacred ceremonies do not embarrass or hurt members.

## **WHAT ABOUT HAZING?**

The University of Connecticut has a zero-tolerance policy regarding hazing for all student organizations. Hazing, or any activity that subjects members to harassment, ridicule, intimidation, physical abuse or sleep deprivation is entirely contrary to the values and purposes of Greek life. Fraternity and sorority members are educated on the dangers of hazing, how to report incidents and how to seek assistance by both University staff and officers of the inter/national organizations. "Hazing [is] defined as an act which endangers the mental or physical health or safety of a student, or which destroys or removes public or private property for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in a group or organization. The express or implied consent of the victim will not be a defense. Apathy or acquiescence in the presence of hazing are not neutral acts; they are violations of this rule." - Responsibilities of Community Life: The Student Code (Part III.B.6.)
